YRC FREIGHT ADVANTAGE
MAKING SHIPPING EASIER FOR SMALL BUSINESSES

HOW SHIPPING IS DONE.

IF SPENDING A LOT OF TIME SHIPPING IS NOT YOUR THING, THEN THIS IS YOUR THING.

Shipping is one of the necessary evils of your business. But “shipping manager” may not be written on your business card. We get it. That’s why we created YRC Freight Advantage. YRC Freight Advantage bundles more than a dozen benefits together into one program and makes shipping simpler and easier than ever for businesses. That should be music to the ears of anyone who wears the shipping manager’s hat full time – or even just on occasion.

**TAKE A LOOK AT SOME
OF THE MANY BENEFITS
OF FREIGHT ADVANTAGE.**

YRC FREIGHT ADVANTAGE WILL SAVE TIME.

- Customers using YRC Freight Advantage have access to a dedicated customer support team. Think of them as your “go-to guys” for shipping issues you don’t want to deal with. With the support team, you’ll get faster response times, expedited issue resolution and time-saving tips and training for future deliveries.
- Your Account Executive will help you set up custom tracking and reports, giving you automated alerts based on your needs. That means no more manually tracking shipments or pulling reports on shipping activity.

YRC FREIGHT ADVANTAGE MEANS FEWER HASSLES.

- YRC Freight Advantage is all about superior service. If you have any issues at all, someone on your dedicated support team will respond quickly and get them resolved so they don’t ever happen again.
- Your Account Executive will provide training and custom setup of our entire suite of online tools. These tools make managing transportation easier. They also reduce the repetitive tasks of getting rate quotes and filling out BOLs so you can get back to doing other things—like not getting rate quotes and filling out BOLs.
- Easy and fast access to Domestic Ocean and Canada quoting and engagement. Get instant online quotes and schedule shipments through the same web tools as domestic shipments.
- You have a dedicated resource monitoring your shipments for W&I issues. When one occurs, you get a timely investigation to identify the root cause and work to prevent future issues

YRC FREIGHT ADVANTAGE OFFERS COMPETITIVE RATES. NO HAGGLING.

- Rates for YRC Freight Advantage customers are adjusted only once a year (at a lower rate than the General Rate Increase). That means customers in the program save money and enjoy rates that are more consistent.
- When diesel prices are below \$4.00, the fuel surcharge for YRC Freight Advantage customers is 0%. When prices rise above \$4.00, it is only 0.10% per \$0.01 increase. This makes the fuel surcharge predictable, easy to understand and competitive.
- Other rate benefits include: Reduced absolute minimum charges (AMCs), no charge for common accessorials like single shipment, notify, reweigh and inspection, and high cost delivery, and reduced upcharges for other accessorials and premium services. In other words—more premium services and value with fewer surprises and fees.

SHIP OUR PREMIUM SERVICES AT A REDUCED UPCHARGE

- Ship our time-definite and faster services at a reduced upcharge.
- Guaranteed by 5 and Guaranteed Multiday Window offer guaranteed reliability on our Standard network.
- Accelerated offers reduced handling and increased speed on our faster network.
- For premium reliability and our fastest service, including the weekend advantage, choose Time-Critical.

YRC FREIGHT ADVANTAGE GIVES YOU TIPS AND HELPS YOU LEARN BEST PRACTICES.

- In addition to a dedicated support team, YRC Freight Advantage customers also have access to exclusive information like tips from experts, offers, news and more.
- Customers also get access to tutorials, FAQs and other content, all designed to make managing your supply chain easier.
