MANAGE YOUR COMPLEX FREIGHT NEEDS

HOW SHIPPING IS DONE.

Moving freight from one place to another is not always as simple as it sounds. It's especially difficult when it requires things like dedicated equipment, air services, tricky delivery windows or reverse logistics. At YRC Freight, we've been solving complex logistical shipping problems almost as long as there have been logistical shipping problems. So bring us your toughest delivery and let us show you how shipping is done.

YOU'VE GOT SPECIALIZED FREIGHT. WE KNOW HOW TO MOVE IT.

GET THE MOST OF YRC FREIGHT'S LOGISTICS SOLUTIONS WITH:

DEDICATED EQUIPMENT

A network of dedicated, reliable ground carriers to best fit your shipment, transit time and budget.

AIR SERVICES

Commercial, cargo or charter air services available for whatever best fits your shipment, transit time and budget.

RESIDENTIAL DIRECT

Our residential delivery service for large (150 lbs or more) consumer shipments has competitive transit times, end to end shipment visibility, competitive pricing and professional handling to minimize damages. Appointment scheduling and notification also available, along with signature, inside delivery and light assembly.

FINAL MILE

Specialized delivery service for residential allows you to select location, date and delivery time with no hidden costs or accessorials.

TRUCKLOAD BROKERAGE

A network of reliable carriers all over North America, easy online quoting for dry vans and access to whatever equipment you need—from reefers to flatbeds to removable goosenecks.

CUSTOM PROJECTS

Tailored solutions and customized operational plans to help with product rollouts, releases and special projects. Plus personal project engineers to provide project management, document preparation, customized reporting and more.

REVERSE LOGISTICS

Three regional processing centers that offer returns processing with a one-call returns hotline, consolidation and distribution and short-term storage, along with a WMS specialized to process returns with unbiased inspections and consolidation by SKU and destination.
