

THE **TWO-CONVENIENT- SPEEDS-FOR-TWO- DIFFERENT NEEDS** FREIGHT COMPANY.

Standard & Accelerated

HOW SHIPPING IS DONE.

For decades, YRC Freight has offered its Standard Service for safe, secure deliveries across North America. In fact, we like to call it the LTL original. But as times have changed and customer needs have evolved, we know that providing flexibility of services is also important. That's why we created Accelerated, our faster standard. Because sometimes getting your freight where it needs to go quickly is not quick enough.

STANDARD AND ACCELERATED. YOU TELL US WHEN IT NEEDS TO BE THERE, AND WE'LL MAKE IT HAPPEN.

SO WHAT EXACTLY IS THE DIFFERENCE BETWEEN ACCELERATED AND STANDARD SERVICE?

Accelerated OUR FASTER STANDARD.

When you want reliable, secure service and time is a top priority, Accelerated is the way to go. These shipments travel through our faster network.

KEY FEATURES:

FASTER SERVICE – Shipments move through our faster network, which decreases transit time

NORTH AMERICAN COVERAGE – Accelerated's faster service is available anywhere in North America, from the continental U.S. to cross-border services in Mexico and Canada

RELIABILITY – Reduced handling due to more direct loading, lowering the chances of damaged and short shipments

Standard THE LTL ORIGINAL

When time is on your side, go with Standard. Freight is shipped safely and securely throughout our 250-plus terminal network with an optional guarantee.

KEY FEATURES:

COVERAGE – Standard reaches our entire North American network

RELIABLE – Safe, reliable shipping of LTL and Volume shipments

GUARANTEE – Add a guarantee* on standard LTL service for even more control and comfort. Optional Guaranteed by 5PM and Guaranteed Multiday Window services available

* Subject to terms and conditions.

NO MATTER WHERE AND WHEN IT NEEDS TO BE THERE, YOU CAN COUNT ON FLEXIBLE SERVICE OPTIONS AND THE EXPERTS AT YRC FREIGHT TO DELIVER. AFTER ALL, WE ARE THE COMPANY WHO PRACTICALLY INVENTED LTL FREIGHT.
